

Whatsapp/Telegram Communications Protocol

This protocol is established to set forth guidelines for the use of Whatsapp/Telegram and Telegram for communications between the attorneys of GLG Litigation B.V. and their clients. It ensures that the communications remain professional, secure, and in line with the attorney-client privilege. All communications between the client and the attorney via Whatsapp/Telegram are confidential and fall under the attorney-client privilege. These communications shall be treated with the utmost discretion and protected from disclosure. Any remarks or exchanges made between the attorney and the client in the group app will be documented and added to the client's case file.

It is the attorney's responsibility to ensure proper recording and storage of these communications. Communications exchanged via Whatsapp/Telegram between the client and the attorney are for informational purposes only and do not qualify as formal legal advice. Formal legal advice will be given in a comprehensive legal opinion, which will be provided to the client in writing. This legal opinion will be issued only upon the execution of a written engagement between the client and the attorney. The attorney reserves the right to decide who may participate in the group app.

The inclusion of any participant is at the sole discretion of the attorney and is determined based on the needs and requirements of the case. By communicating with the attorney via Whatsapp/Telegram, all participants implicitly agree to abide by this protocol. This protocol forms a part of the terms and conditions of GLG Litigation B.V. Any breach of this protocol may result in immediate removal from the group and potential legal consequences.

Participants are advised to ensure that their devices are secured, have the latest security updates, and are protected by strong, unique passwords. The loss or theft of a device containing confidential communications should be reported immediately to the attorney. Should a client wish to terminate communication over Whatsapp/Telegram or if the attorney deems it necessary, all relevant communications should be exported and secured before ending the Whatsapp/Telegram conversation.

GLG Litigation B.V. reserves the right to amend this protocol at any time. Notifications regarding any updates will be communicated to participants in a timely manner.
